As part of a national Boy Scout of America program, the Pacific Skyline Council is once again excited to announce their participation in the Voice of the Scout. (A big thank you to those of you who responded last spring.)

With over four million members, this program is being adopted as a key way to collect experiences and deliver upon the expectation of members as they participate in Scouting.

Beginning this week, parents, Scouts & Venturers over 14, volunteers and chartered organizations will begin seeing surveys delivered into their email inboxes for Voice of the Scout, and the roll-out will take about three weeks. The surveys have been designed to be very brief but will give needed insight into the variety of experiences at the unit and district within our council.

Please watch for an email from "The Boy Scouts of America" followed by your scouting position. (Scout, Boy Scout Parent, Cub Scout Parent, COR, District, or Leader.

The subject line will be as follows:

Scouts – Let Pacific Skyline Council know what you think
Boy Scout Parents – Help Pacific Skyline Council Improve Scouting
Cub Scout Parents – Help Pacific Skyline Council Improve Cub Scouts
COR – Tell Pacific Skyline Council how we are doing
District – Give Pacific Skyline Council your feedback
Leader – Help Pacific Skyline Council improve

Surveys will stay open for three weeks, and then information will be referenced for making key decisions to drive Scouting forward, as guided by the people that matter most – our members. It will be a continuous program, in that we will launch these surveys twice per year, with no household receiving more than one survey every six months.

Voice of the Scout is how we will help guide our decision-making for our future programs and operational delivery. ***Please take a few minutes of your time to participate!***
